CO-OPTED MEMBER**NOTICE / CIRCULAR TO ALL RESIDENTS****Subject: Advisory Regarding Interference with Lift CCTV Camera (C-Block Lift)**

This is to bring to your attention a matter of concern regarding the CCTV camera installed in the lift in the C-Block. It has been observed that a child of one of the residents has been repeatedly interfering with the camera, which may affect its proper functioning and compromise security.

A few days back, common corridor (entrance of flat no- A706) in A-Block was also defaced (graffiti paint work). Management Committee had to arrange painter to get the defaced area repainted from society funds.

Residents are requested to ensure that children are appropriately guided and supervised at all times, and that all society property is treated with care and responsibility.

The Society Management Committee has recently entered into an agreement with a third-party vendor, Accumedia IT Media, to implement a Lift Media Advertisement System for promotional content and society updates. As part of this initiative, the vendor has installed new LED screens at the entrance of each lift, along with two advertisement poster frames inside each lift across all five towers.

All residents are reminded that every installation and facility within the premises—including those provided by third-party vendors—such as LED Screen, Frames & Posters, CCTV cameras, lifts, switches, firefighting equipment, lighting systems, furniture, the community hall, sports amenities, garden areas, and other shared infrastructure, are the property of the Society. Any misuse, interference, or damage to these assets may disrupt essential services and compromise the safety and security of residents. Therefore, they must be used with utmost care and responsibility.

Please note that any damage caused due to negligence or improper handling of society property or third-party installations will be charged to the concerned resident(s).

The Society Management seeks your cooperation in maintaining and safeguarding all common facilities.

**Management Committee**
